

## The Equity Scorecard

<http://cue.usc.edu/tools/the-equity-scorecard>

The Equity Scorecard™ is both a process and a data tool. As a process, it combines a theoretical framework with practical strategies to initiate institutional change that will lead to equitable outcomes for students of color. What's unique about it is the engagement of individuals from different departments and divisions in an evidence team which investigates campus data, practices and policies. Near the conclusion of the process, the team will complete a Scorecard which captures the results of its investigations.
