Overarching Goals

- Substantively engage actors involved with the Equitable Value Movement through presentations and conversations pertaining to awareness, data collection and analysis, strategy, and meaning-making.
- Highlight and celebrate progress within the movement by various actors (within and outside of IHEP-led projects), including increasing awareness and practical use of data on postsecondary value, such as the data included in the Equitable Value Explorer (EVE).
- Make connections between data analysis and practice and institutional, state, and federal policies/strategies.
